THIRTEEN MORE DIE. FALL WAS FRIGHTFUL

Thirty-One Additional Cases Were
Reported Sunday.

NATCHEZ A SUFFERER

Total of Twenty Patients Are at the
Mississippi City and It Is Said
Negress Brought Disease
From New Orleans.

New Orleans, Aug. 28.—Following is official yellow fever report up to 6 o'clock Sunday afternoon: New cases, 31; total, 1743; deaths, 13; total deaths, 255; new foci, 12; total, 402; remaining under treatment, 199.

The record shows the smallest number of new cases since Aug. 6, and the largest number of deaths on any day since the fever made its appearance. The unusual number of deaths is attributed in a measure to the change in weather, Saturday night being cool and pleasant, in great contrast with the preceding week. Three well known merchants are among the new cases. Only two names that can be traced to Italian origin are among the thirty-one. Of the deaths, eight are Italians. Two died in the charity hospital and two in the emergency. All but two of the deaths were down town. The principal news from outside the city was the announcement from Natchez of the discovery of six cases there and the attempt to blame New Orleans for them. This is regarded as rather strange in view of the fact that of all the tight quarantines against New Orleans, Natchez has maintained the tightest, not even allowing its own people to enter if they had been near New Orleans.

Other reports from the country are as follows:

Patterson, no new cases and no deaths.

Amelia, two cases.

Bayou Boef, one case.

Pecan Grove, three cases and one death; at Elizabeth plantation, one death.

Hanson City, four new cases and one death.

St. Rose, two cases.

Port Barrow, two cases.

Ninth ward of Jefferson parish, one case.

Lake Providence, three cases.

Gulfport, three cases.

The Southern Pacific, at the request of the state board of health, has put on a special coach for the accommodation of people traveling between infected points on that road. It will be run every other day. Quite a controversy has developed between City Health Officer Kohnke and Dr. Joseph Holt, at one time president of the state board of health. Dr. Holt, in the course of an address before a meeting, passed some severe structures on the city health officer, who, when read the report of the address in the morning papers, wrote him asking if he had been correctly quoted. Dr. Holt made a rather warm reply.

THIRTEEN CASES.

Natchez Physicians Think There Are
That Many Cases There.

Natchez, Miss., Aug. 28.—Physicians of the Natchez board of health examined and pronounced as yellow fever two patients, a white woman and a negro man. Examining further, five negroes convalescing from yellow fever were found in the northeast end of town, together with seventeen suspected cases of sickness, thirteen of which are undoubtedly yellow fever.

No Fever at Memphis.

Memphis, Aug. 28.—After spending Sunday here Governor Vardaman of Mississippi and Dr. J. F. Hunter, secretary of the board of health of that state, declare there is no yellow fever in this city.

UNTIL TUESDAY.

Peace Conference, at Request of Japanese, Extended Another Day.

Portsmouth, N. H., Aug. 28.—After a conference lasting three-quarters of an hour between Takahira and Witte in the latter's room, the announcement of a postponement was made. M. Witte explained to the Associated Press that Mr. Takahira had told him that no new instructions had reached him from Tokio, and fearing none might be received before the meeting scheduled for Monday afternoon he had suggested the propriety of postponing the meeting until Tuesday.

Mr. Takahira made the following statement to the Associated Press: "Inasmuch as this conference was initiated by the friendly offices of your president, after consultation we felt that we should be cautious about terminating its labors."

Pressed as to whether he regarded the situation as hopeless, Mr. Takahira said: "No, not hopeless; but almost hopeless."

Minneapolis, Aug. 28.—But a few minutes after the close of Rev. W. B. Riley's sermon at the First Baptist church, a man who is thought to be W. Rowen of Sublette, Ill., got up in a pew and fired a bullet through his heart, dying instantly. On search of his clothes a draft for \$700 was found on his person in the name of W. Rowen, Sublette, Ill. Some small change was found in another pocket.

Man Dropped From Trapeze Twelve
Hundred Feet High.

EVERY BONE BROKEN

Victim, Determined to Make an As-
cension In the Air, Grabs the
Bar and Drops to Cer-
tain Destruction.

St. Louis, Aug. 28.—Releasing his grasp on a trapeze attached to a parachute as the latter opened to the wind 1200 feet above the ground, John Williams, thirty-eight years old, has been dashed to death at Red House Park, near Cahokia, Ill. Every bone in his body was broken, as Williams struck the ground with fearful force.

The tragedy is said to have been the result of the victim's determination to make a balloon ascension. As the aeronaut prepared to make the ascensions, Williams is said to have rushed forward and seized the trapeze bar, calling to his friends, "good-bye." As he clasped the bar the balloon rose into space, carrying both the aeronaut and Williams. As the parachute commenced to fill in the wind and the rapid descent of the canvass was suddenly checked, Williams, whose strength was exhausted, was jerked loose from the bar and his body shot downward.

The aeronaut was uninjured, and lighted a few yards away from the scene where Williams met his death.

FEVER'S FIFTH WEEK.

Many of the Cases Are of the Light-
est Type of Disease.

New Orleans, Aug. 28.—The fifth week against yellow fever began with continuance of favorable conditions and with reason for the hope that the crisis is passed. In fact, there are only 199 cases under treatment and many of them of the lightest character. This is especially significant. In the thirty-one cases of Sunday, only five are Italians and there are only three cases reported from the originally infected Italian quarters. The authorities felt when the sickness was practically stamped out of this district it would be comparatively easy to control it elsewhere, and there is encouragement therefore, in Sunday's report, the fatalities continuing largely among the foreign element.

Surgeon Guiteras went to Patterson and Surgeon Corput started on a tour of the surrounding country. Surgeon von Ezzdorf has gone to Leeville, from which place information continues vague owing to its isolation.

Monday's reports bring advices of a general quarantine against Natchez, all Mississippi towns cutting off communication with that city, which is not difficult in view of the fact that it is not on the main line of a railroad. Vidalia, La., which is on the opposite side of the river, has suspended ferry communication. Many Natchez people are anxious to leave, but they have no means of getting out of town. Iberia parish, through which the Southern Pacific runs, has a fresh fright and wants to cut off all passenger communication with the rest of the state. The railroad is disposed to obey the regulation, assuming that as Iberia will suffer most an early abrogation of it will be asked.

Alexandria is free of fever and advices from there say all signs indicate an early frost. Tree leaves have been falling for several days and wild geese have been passing over the city bound south.

Reports of low temperatures come from various points in the southwestern section of the state. The weather here was unseasonably cool Monday morning.

Rev. Dr. Warner announced that preparations are being completed for the disinfection of every church and meeting place at New Orleans during the current week. Dr. Warner's own church, Trinity, already has been treated.

Dr. Juan Guiteras continues his series of lectures here, speaking nearly every night. He devotes the daylight hours to a study of fever conditions. It has been announced here since his arrival that Dr. Guiteras has been made dean of the University of Havana.

President Kohnke of the city board of health corrected a statement attributed to him in the press. Dr. Kohnke stated what he said was that the last case might not be reached before frost, because of concealment or other similar reasons, but that the fever is already controlled and the date of the last case is not of as great importance as a winning fight for control. Dr. Kohnke said the great damage by yellow fever to New Orleans was not so much the death rate, for it has been shown this year that it is not the deadly disease of ancient times, but to the city's commerce, resulting from the panic in outside communities.

Twenty-two new cases and five deaths was yellow fever record up to noon Monday.

TUESDAY, AUGUST 29.

EXPLAINS THE SECRET.

The Bryan Eagle printed a long article yesterday giving reasons why prospects for a large fall trade at Bryan seemed better than ever, and cites among other things, that there has always been a CONCERT OF ACTION on the part of the business men of Bryan.

That is the milk in the cocoa-nut! The whole explanation of any town's success in a nutshell. Whenever the business men of a town are a unit on any proposition it doesn't take a great while for them to get busy and accomplish things. Hot air talks on the streets don't amount to a hill of beans when action is needed.—Navasota Examiner.

Another car of canned goods was shipped from this point this week. This car goes to the Rotan Grocery Company of Waco, and this is the biggest car yet. It contained 331 cases of 2 pound tomatoes; 230 cases of 3 pound tomatoes; 25 cases of okra and tomatoes; 25 cases of beans; 25 cases of 2 pound pie peaches; and 72 cans of 3 pound standard peaches. The canning factory has about rounded up all the truck and fruit in the country that is available and will close down in a few days. The factory has been very successful this year and from the treatment the truckers have received this year from the canning factory, we feel sure that they will plant plenty of truck next year.—Franklin, Texan.

For Sale Cheap—Fine lady's leaping horn side saddle, royal buckskin seat, two girths, slipper stirrup. Also good first-class mandolin with hand embroidery felt case. Inquire at Eagle office or phone 383.

COTTON PICKING TIME.

Let us gather up the washing,
Lying all around the room,
And wade in without a murmur
With the dust-pan and the broom.
Let us find the sweetest comfort
That 'tis only for a day—
The cook may return tomorrow
And chase the gloom away.

If we knew those coal-black fingers
Working in our biscuit dough
Would be picking out boll weevils
In the cotton, white as snow,
Would we e'er get over the notion
She could all the "varmints" shake,
And sometime, in our biscuit,
A boll weevil she might bake?

Ah! those coal-black, shiny fingers,
How they point our memories back
To the easy time we always have
When the burden's on their back.
How those soapy hands remind us
When they're splashing in the suds,
We won't have to go to "Freedman Town"
For someone to wash our duds.

SLIGHT STIR IN OIL CIRCLES.

For the past several days there has been more or less agitation among the holders of oil land in this county, not so much on account of any special move being made, as the secrecy attached to certain individuals who have been in and out quite frequently. Two gentlemen of reputed wealth spent several days lately in the Lamb Springs neighborhood and this morning boarded the limited with the intention to go across the country from Roan's Prairie to Singleton on another inspection. The reporter could not locate their names, but was given to understand that they were oil magnates, all right. They own six rigs that are ready to be placed in this field if sufficiently interested.—Navasota Examiner.

There are numerous suggestions as to whom the board will elect as president of the A. and M. College. It is a most important matter. The need is for one who fully understands the methods in vogue, the history of the college, and what is needed to make it do a perfect work. Texas Farmer believes Prof. H. H. Harrington for many years connected with the faculty, would be the wisest choice that could be made. We do not know that he would accept the position, but do know that his appointment would meet indorsement from all true friends of the college.—Texas Farmer.

MR. LAW DECLINES PRESIDENCY

Of Texas Woman's College—Dr. Booth of Tennessee Invited to Visit Bryan with View to the Place.

The board of directors of the Texas Woman's College held a meeting at 6 o'clock yesterday afternoon, and the following letter from Mr. F. Marion Law, which is self-explanatory, was received and read:

Bryan, Texas, Aug. 28, 1905.
Dr. G. B. Butler, President Board of Directors, Texas Woman's College:
Dear Sir:—I beg you to say to the Directors that I am deeply sensible of the honor done me in the invitation to become President of the College. After careful and conscientious consideration of the matter I have decided to decline the invitation.

This I do regretfully but finally. My decision will not, in anywise, abate my interest in the school.

Yours truly, F. M. Law.
Dr. A. E. Booth of Huntington, Tennessee, president of Huntington University, which has an attendance of 700 pupils, has been invited by the board to visit Bryan at once with the view of supplying the presidency of the college. Dr. Booth has previously signified his willingness to come.

Dr. Butler will continue in the capacity of acting president until the president is chosen.

Prof. Frederick Lillebridge, musical director, and Mrs. Charlotte Luchs-Lillebridge will arrive from New York about Sept. 15, and will soon thereafter give one of their grand concerts, such as they have given in Europe and in New York.

ANOTHER QUARANTINE.

Dr. Tabor Has Declared One Against Memphis and Mississippi.

Houston, Aug. 28.—State Health Officer Tabor declared Texas is quarantined against Memphis and Mississippi. Through travel under proper surveillance will be permitted to pass through Memphis. It is also ordered that no more banana shipments are to be permitted to enter the state.

Pipe Line Promised.

Cleveland, Okla., Aug. 28.—The oil producers of the Cleveland field are rejoicing over the Standard's promise to give them a six-inch pipe line into the field within the near future. The Standard now has fifteen 35,000-barrel tanks completed at this place, and all full, and six additional tanks of the same capacity under construction. One four-inch pipe line now penetrates the field.

SWUNG TO A BRACE.

John Moore, a Negro, Taken From Jail, Hanged and Bullet Riddled.

Newburn, N. C., Aug. 28.—John Moore, a negro twenty years old, was taken from Craven county jail in this city early Sunday and lynched by a mob of 100 masked men armed with revolvers and rifles.

With his hands tied behind him the negro was led out about a third of a mile from the jail to the draw of Neuse river bridge, hanged to one of its braces and his body riddled with bullets. The mob attacked the jail between 1 and 2 o'clock Sunday morning. Entrance to the jail was effected by forcing the jailor to surrender the keys. As soon as the attack was discovered the naval reserves were called out to attempt to prevent the lynching. Crowds rushed to the bridge. Sheriff J. W. Biddle was quickly on the scene pleading that Moore be left to the l.v., but his efforts were unavailing and the mob carried out its plans.

Moore entered the country store of George Eubanks at Clarks, seven miles from Newburn, last Friday, when the proprietor's wife was the only one in. The negro attempted robbery and struck Mrs. Eubank on the head with a meat ax, fracturing bones and inflicting injuries, which if they do not prove fatal will at least cause not only disfigurement, but life long suffering. Mrs. Eubanks screamed and people came to her rescue. The negro fled, but was captured in a swamp after a chase of a few miles and was placed in jail.

ASSESSMENT DOUBLED.

Chicago Printers Will Put Up a Long and Bitter Fight.

Chicago, Aug. 28.—Before the middle of this week every union printer in the thirty-seven shops controlled by the Typothetae will be on strike and before another week the fight may be extended to twelve of the principal cities of middle west, the employers of which are organized with the Chicago Typothetae. This forms a part of the national body of master printers. That the printers will put up a long and bitter fight against the Typothetae was foreshadowed Sunday when Chicago Typographical union raised the strike assessment from 10 to 20 per cent. It was also determined to present demands at once for an eight-hour day and an agreement for closed shops.

The raising of the strike assessment went as an addition of \$8000 weekly to the defense fund and the printers say they can keep men on the strike without touching the \$1,000,000 fund, which, the union says, it is ready to spend if necessary.

CAPITAL GREAT.

Evangeline Oil Company Name of an Immense Corporation.

Beaumont, Aug. 28.—The Evangeline Oil company, capitalized at \$1,250,000, has been organized at Memphis. Its purpose is to take over all the Louisiana and Texas properties of the syndicate which has been known heretofore as the Carnes, Bass and Benckenstein people.

It includes the pipe line to the Mississippi river, the big Jennings storage tanks with their vast supply of oil, the big Texas properties that have been handled by these people with the oil in storage and wells.

BIRTHDAY SERMON.

Longer Actively Engaged in Ministry Than Any Man in Texas.

Ennis, Tex., Aug. 28.—Rev. Angus Johnson, for seventy years a minister of the Southern Presbyterian church, celebrated his ninety-seventh birthday here Sunday by preaching morning and evening at the First Presbyterian church. Rev. Johnson and his aged wife live happily and contentedly in the village of Avalon, ten miles west of Ennis, and are well known and popular all over this section. Rev. Johnson claims the distinction of having been actively engaged in the ministry longer than any other man in Texas.

Both Released.

Dallas, Aug. 28.—R. H. Cooper and Mrs. W. E. Green, charged with murder of Mrs. Greene's husband, were released on their own recognizance. Verdict of Justice Edwards was that deceased suicided.

Given Chest of Silver.

Houston, Aug. 28.—Rev. Dr. Riley delivered Sunday at the First Baptist church his farewell sermon. At the close of the service he was presented with a chest of silverware.

Falls and Expires.

Dallas, Aug. 28.—John W. Murphy, aged about forty years, who had just sat down on a bench after a walk, fell to the ground and expired instantly.

Advanced Two Cents.

Beaumont, Aug. 28.—The Texas company posted a notice advancing the price of oil 2 cents a barrel in all fields.

HASTY TOO HASTY.

Mistakes Brother-in-Law For a Burglar and Fatally Shoots Him.

Wilmington, N. C., Aug. 28.—Mistaking his thirteen year old brother-in-law for a burglar, Frank Hasty of Bolton shot and killed Willie Robinson. The victim died in seven hours.

Charged With Assault.

Ada, I. T., Aug. 28.—Mrs. A. Latta, an aged woman residing near Fitzhugh, alleges that Ord Rich, a young man, criminally assaulted her. Rich was placed in jail here. He stoutly denies the charges.

With Japanese Labor.

City of Mexico, Aug. 28.—It is probable that several thousand Japanese laborers will construct the Pacific coast extension of the Mexican Central railway.

WHEN ACCEPTABLE.

Only After Japanese Make Threatening Moves in Russia.

St. Petersburg, Aug. 28.—The Soviet says: "Japanese conditions of peace will only be acceptable if the Japanese fleet is threatening St. Petersburg and Japanese army occupying Moscow. Russia will not bow to the Japanese yoke to carry out President Roosevelt's desire to guarantee American creditors in Japan and cover himself with glory as a peace maker. Japan in needing peace seeks it through an intermediary, her friend, President Roosevelt, and will make exorbitant demands in which the president is striving indirectly to exact the consent of Russia. After long and fruitless negotiations it seems we are on the eve of what Russia long desired—a great battle between General Linevitch and Field Marshal Oyama."

LOSES BOTH LEGS.

Fireman Pinioned Beneath His Locomotive and Is Killed.

Logansport, Ind., Aug. 28.—One man was killed, another fatally injured and a number of passengers seriously injured in a collision which occurred on the Pennsylvania railroad about three miles from this city early Monday morning. Fireman Walter Eversole of Richmond is dead, pinioned beneath his engine. Engineer Grady was thrown beneath his engine and both legs were severed. He cannot live.

The wrecked train was an excursion which left here Sunday morning at 5 o'clock for Cincinnati, and was due on its return here at 1 o'clock Monday morning. As it entered the south yards at a high rate of speed freight train No. 72, southbound, was just leaving the main track and the excursion train crashed into it. There were ten cars on the excursion train, four of which left the track. The passenger engine was reversed and overturned. The baggage coaches were knocked from the trucks, but did not overturn. The other coaches did not leave the track.

THE EAGLE MEETS THE DEMAND

For Advertising Bryan in Adjoining Counties—Will Circulate Ten Thousand Attractive Invitations to the people to trade in Bryan.

In the keen competition between the cotton buyers now at Bryan and consequent low prices paid, and other advantages that will be mentioned, Bryan enjoys some points of superiority that entitle her to a very fine trade this fall and winter. We have fairly good roads in every direction, and good bridges. The toll bridge across the Brazos has been made free; Batte's ferry is free. A number of cotton buying firms are represented here; cotton seed buyers are plentiful and keen to buy. Bryan has free wagon yards, and big stores in all lines filled with goods, with assortments to select from and prices unequalled in any would-be competitive towns. These advantages should be advertised where they will do us the most good, and we find that there is a general demand among leading business men that this be done at once.

The Eagle announces a trade edition, to be issued Sept. 10 to be distributed by hand in Madison, Burleson and Grimes counties; and circulated to the Eagle's list of subscribers in Brazos county and many in adjoining counties by mail.

All the business men so far seen have endorsed the plan, and subscribed to the expense fund. If others do likewise, it will be a success, and will be a great benefit to Bryan's trade.

According to the plan (as explained in detail by our solicitor) a circulation of ten thousand is given to an invitation to the people to come to Bryan.

HAS RETURNED TO BRYAN.

After a year's absence at Galveston Mr. Alonzo Carter has returned to Bryan and purchased from C. J. Gorzycki, the studio of which formerly he was proprietor. Mr. Carter went away with the idea of acquiring a more perfect knowledge of his profession, and has spent the year profitably with Morris of Galveston, one of the foremost photographers of the state. He has returned to Bryan to make his home permanently, and will at once begin entirely refitting and refurnishing his studio out and out, putting in new and up to date equipment. He will also carry in stock photographers' and kodak supplies, mouldings, frames, etc., and guarantees as good work as can be secured in the state. Mr. Carter's many friends will be glad to welcome him to Bryan again. Mr. Gorzycki goes to Calvert to engage in the business, and the people of that city will find him to be well posted and well equipped for his work.

CURE FOR HAY FEVER.

E. J. Jenkins Says Hyomei Will Give Relief—Sold Under Guarantee.

The season for hay fever is almost at hand, and many people feel that they will be obliged to go away in order to avoid the sneezing, watery eyes, and other annoying symptoms of this disagreeable summer disease.

E. J. Jenkins wishes to announce that when Hyomei is used as a preventive, or a cure, there will be no hay fever. He advises daily treatment with Hyomei for two or three weeks before the usual time for the annual appearance of hay fever. If this is done, the attack will be prevented. However, if the preventive treatment is not started soon enough and the disease makes its appearance, use Hyomei six or seven times daily, and relief will be given at once.

There is no stomach dosing when Hyomei is used. Broathed through the neat pocket inhaler that comes with every outfit, its medicated air reaches the minutest air cells, killing all germs and soothing and healing the irritated mucous membrane. The complete Hyomei outfit costs but \$1, extra bottles 50 cents. It is the only treatment for hay fever sold by E. J. Jenkins under a guarantee to refund the money if it does not give satisfaction.

MEETING POSTPONED.

Owing to sickness in the community and the work of gathering crops, the meeting at Providence church is postponed until a later date, and will begin at 8 p. m., Wednesday, Sept. 13. Rev. C. P. Lumpkin and Rev. G. W. Goodman are expected to assist in the meeting, and everybody is cordially invited to attend.

J. W. Stephen,
Pastor.

STATE FAIR OF TEXAS

DALLAS, TEXAS

SEPTEMBER 30--OCTOBER 15, 1905
ANNOUNCEMENT.

The present organization, known as the State Fair of Texas, stands today without a parallel in the history of Fairs. It is owned and managed by some fifteen hundred of the most prominent citizens of Dallas, who have donated the money to build a fire-proof auditorium and exposition building on the Fair Grounds, costing \$100,000 and in addition to this have advanced the princely sum of \$90,000 for premiums, purses and attractions that the Fair of 1905 may go down into history as the largest and grandest event of its kind ever given in the Southwest.

Every stockholder of this institution has signed an agreement to donate his stock for the good of the cause, and under a contract with the City of Dallas, it is agreed that no officer nor director, other than the Secretary, shall receive any compensation for his services and that every dollar earned by this Fair during the next twenty years shall be expended in the effort to make each succeeding Fair better than the last.

The gates of the Twentieth Annual Fair will open at 10 a. m., Sept. 30, 1905, the Fair continuing sixteen days.

During this period the public is assured of sixteen days solid pleasure and recreation, as well as the opportunity of seeing the largest and best display of live stock ever collected together in the South.

The lovers of speed horses are assured thirteen days racing with high-grade horses, competing for purses aggregating \$30,000, and last, but not least, the homeseeker will have an opportunity to examine a complete display of the varied resources and industries of Texas, as well as those of her sister states.

For further information and details address the State Fair of Texas, Dallas, Texas.

Yours respectfully,
STATE FAIR OF TEXAS
C. A. KEATING, President.
SYDNEY SMITH, Secretary.

ONE MINUTE

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup.

Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. I quickly secured a bottle of One Minute Cough Cure and gave her three doses half an hour apart. The croup was mastered and our little darling speedily recovered. I cannot praise One Minute Cough Cure too much for what it has done in our family.—A. L. Spafford, Postmaster, Chester, Mich.

SIGN OR STRIKE.
Chicago Typographical Union Insists
Upon Immediate Action.

Chicago, Aug. 28.—Having planned to raise enough funds to carry a small army of men on strike indefinitely, officers of Chicago Typographical union demand signed agreements from members of Typothetae guaranteeing an eight-hour day under threat of an instant strike. By aiming to have a general strike of job printers in all the large cities near Chicago from Ohio to Missouri and Minnesota, local unionists plan to halt importation of non-union compositors from St. Louis, Indianapolis, St. Paul, Minneapolis, Cleveland and other cities where the Chicago Typothetae has been advertising for men to work under "open shop" rules. With these cities themselves in the throes of a strike the members of the Typographical union No. 16 believe there will be no surplus printers to be sent here. In addition to six shops which posted open shop notices Saturday and came under the ban of the union twenty-seven other members of the Chicago Typothetae are threatened. Union officials expect about ten remaining firms to declare for war.

COMPLETELY PARALYZED.
Flour Trade Between Pacific Coast and
Orient Ports at Standstill.

Seattle, Aug. 28.—Advices received by a large milling company of this city from its agent at Hongkong states the Chinese boycott of American goods has completely paralyzed flour trade between Pacific coast ports and China. No sales have been made since July 15 and all orders for September have been cancelled. The company's agent writes that breadmakers in bakeshops of Canton and Hongkong refuse to handle American flour and smaller dealers dare not purchase it for this reason. Trade with Straits Settlements and Indo-China is also threatened by reason of the fact that the flour supply for these countries is controlled wholly by Chinese merchants.

"REDEMPTION" PRICE.
Japan Willing to Leave This to Mixed
Commission For Settlement.

Portsmouth, N. H., Aug. 28.—The Associated Press had definite knowledge several days ago that President Roosevelt was authorized on behalf of Japan to waive all claim for indemnity or reimbursement for cost of war and cede back to Russia the north half of Sakhalin island leaving the "redemption" price to arbitration of a mixed commission for settlement. This statement was transmitted to the Russian emperor through the American ambassador at St. Petersburg. An Associated Press telegram announced the czar's reply was "partially responsive." There is reason to believe this proposition on behalf of Japan was not clearly understood at Peterhof, but is supposed to be a revival of the effort of Japan to secure indemnity under guise of purchase money for a fraction of Sakhalin. It is believed the conference which was held Sunday evening between Messrs. Witte and Takahira was for the purpose of clearing up the situation, and it is not now improbable that, following the precedent of its ally, Great Britain, Japan will agree to settle the whole question of redemption price and Sakhalin as the Dogger bank troubles were adjusted.

The Japanese contention is Sakhalin island is de facto Japanese territory and Russia has no means at her command for its present recovery. It is understood M. Witte accepted this view in principle and expressed his judgment that Russia should pay something in the nature of redemption money.

It is not true the adjournment which was agreed to Sunday night until Tuesday afternoon was made at the suggestion of President Roosevelt. There is reason for believing he knew nothing whatever of it, but the adjournment was by mutual agreement between Messrs. Witte and Takahira.

Special Council.
Tokio, Aug. 28.—A specially summoned council of the cabinet and elder statesmen went into session this morning to discuss peace conference at Portsmouth.

What the Teacher Must Do.
Knowledge is good, but wisdom is better. The college valedictorian, trained to take knowledge in rather than to impart it, may have much of it with but little wisdom. He may be able, as a teacher, to drill boys and girls in Greek and Latin declensions and cram them with facts, useful or valueless, but if he cannot produce in them what Spencer calls "pleasurable excitement" and interest he is a failure. His would be the sort of teaching that harps upon obedience and discipline and endeavors by force of rule and rod to oblige the pupil to study and learn. The will cannot be forced, but the real teacher knows well that it can be led. He remembers the remark of Rousseau that "the teacher's province is less to instruct than to guide," that "he must not lay down precepts, but teach his pupils to discover them." This was the way of that great teacher, Agassiz, certainly.—Arthur Gilman in Atlantic.

The Small Mouthed Bass.

The small mouthed bass fully deserves his reputation for being vigorous and gamy from infancy. He is extremely pugnacious by nature and has fighting tactics peculiarly his own which for strength, activity and craft are unequalled. I once took a bass four inches long on a spoon hook, the bowl of which was more than two inches long. This bass does not hesitate to tackle that terror of all other fish—the fierce and voracious pickerel. With his first dorsal fin rigidly set up, he lays off some ten or twenty feet and then makes a rapid dash right into and under the "long face," forcing him to clear out at once or ripping him so badly that he is hors de combat. The fact has been established that bass introduced into a pond containing pickerel will ultimately destroy the latter. The same fate awaits other fish, including trout.—Outing.
